

LEARN ABOUT LAND

Whether you desire to buy or sell land, or just learn, your best source is “The Apex Land Man”, Bob Atkinson.

In the last 25 years Bob has researched land all over Wake and surrounding counties and has developed massive amounts of valuable information about land. In the last 5 years, he has invested in the very latest technology to be able to provide the best information available on land. Not everyone is an internet guru, or even remotely skillful at using computers but today it’s an absolute necessity to succeed in the real estate business and operate on a highly professional level.

Upon entering the cyber world in 1991, Bob Atkinson developed a web site called landinvestment.net for the sole purpose of educating the general public about land. Today, the web site is ranked #1 on most search engines and is one of the largest in the entire world.

Specialization is a word we have all become familiar with in the medical profession. In real estate it’s the same and most real estate agents have little or no skills in the area of LAND. Today, a land agent must know about future roads, zoning, land use regulations, soil types, environmental issues, TAXES and the land development process. To become knowledgeable takes years, a lot of practical experience and a great deal of continued education, all of which Bob Atkinson possesses.

Atkinson Properties now handles land for owners all over the State of North Carolina and can research land anywhere in the United States. IF YOU HAVE QUESTIONS ABOUT BUYING, SELLING, OR DEVELOPING LAND A CALL OR E-MAIL TO “THE LAND MAN” IS THE BEST MOVE YOU’LL EVER MAKE.
